the fiscal printer developed
for data transmission

One step ahead...
new RT fiscal printer has been developed for sending data
to remote sever.

RT fiscal printer has the innovative technology for data transmission and in addition it has the advanced features for sales experience improvement, including:
the new retractable service keyboard with 2x16 backlit display, the front USB port and the near-end of paper sensor.

The "easy-loading" printer, 58 or 80mm thermal head, allows you to print Barcode, QRcode and graphics at maximum speed. Self-calibration system and auto-cutter minimize manual intervention. Stylish and compact design for an ergonomics and functional shape.

"Stay connected"

USB, micro USB, ethernet and WIFI are available for connection to PCs, tablets and smartphones, as well as external peripherals such as scanners, scales and POS.

technical specifications:

printer

58 and 80mm thermal head, 8 dots/mm resolution
 printing speed: 220 mm/sec
 paper roll diameter: 80mm max
 paper roll width: 58 / 60 / 80mm
 easy-loading paper system
 partial and total auto-cutter

peripherals

extractable service keyboard 28 keys with 2x16 alphanumeric
 backlit LCD operator display
 external keyboard 32 or 66 keys (6 programmable keys) with 2x20
