SafeMoney is the range of cash-handling systems that automates cash payment management processes, avoiding errors in the calculation of the change. Safemoney is the ideal solution to ensure an accurate, efficient and safe money management to the point of sale without errors and preserving it from risk of thefts and robberies.

**ditronnetwork**  
 solutions for the retail world

SafeMoney automates cash handling at the payment positions minimising the risks of counting errors and shortages, benefiting store profits. Staff productivity and customer service are also enhanced by reducing cashier fault. Losses arising from internal theft, errors in calculating the change, introductions of fake coins and notes are avoided, as well as the chances of

theft or robbery are reduced. SafeMoney increases the image of a business where cash and food are handled, improving the hygiene level by avoiding operator handling money. SafeMoney is easily integrated into any front-end application

SafeMoney Compact is the new automatic Ditronetwork cash-handling systems with embeddable fiscal printer and fast coin insertion "SMART COIN SYSTEM". Thanks to its compact size and elegant design, it integrates perfectly into any type of location.

- high operational speed thanks to bulk coin insertion "SMART COIN SYSTEM"
- programmable levels of cash fund based on the needs of the store
- simple and secure interfacing
- management of the integrated drawer with XPOS cash point software for pc
- improves the level of hygiene by limiting contact with money
- ideal for points of sale with low to medium flow of customers

SafeMoney Advance is the cash-handling solution for the most demanding points of sale, for rapid payment and change operations, bills-changes and daily closings.

- high operational speed thanks to bulk coin insertion "SMART COIN SYSTEM" and the fast delivery of banknotes to up to 15 banknotes at the same time
- integrated web service
- automatic mailing service
- programmable levels of cash fund based on the needs of the store
- simple and secure interfacing
- management of the integrated drawer with XPOS cash point software for pc
- ideal for points of sale with medium to high flow of customers (multiple installations in one store allowed)
