

DESIGN FOR ALL - BARRIER FREE

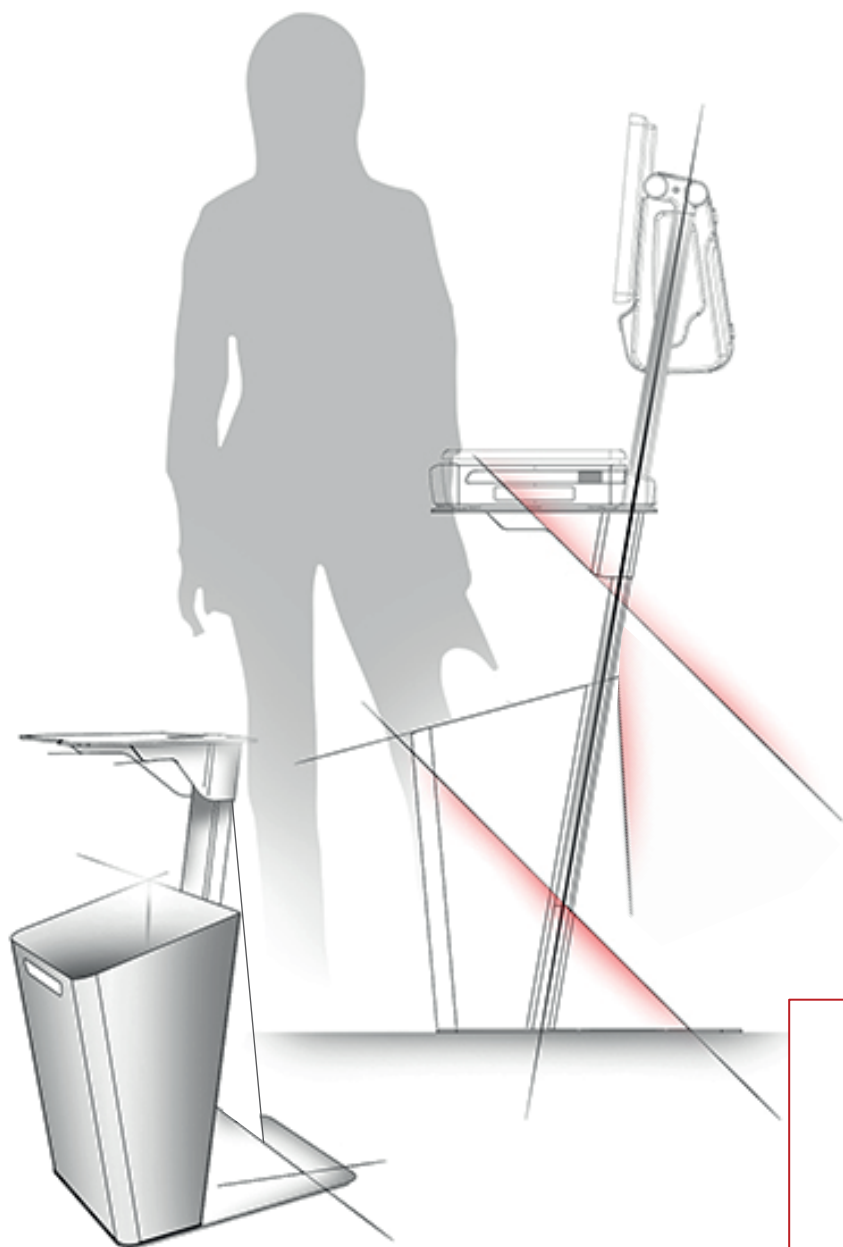

The structure that guarantees independent and always different solutions. Its simple and essential design makes it the perfect appointment for any type of needs for space and the dimensions are designed to make SELF weighing suitable and accessible to everyone. The empty column allows the cable routing (LAN ed power supply), in addition, the fixing to the floor adds stability and even more resistance. The pedestal can accommodate any model in the Omega Freestyle range (Compact, Advanced and Extreme).

And, to complete the configuration, it is possible to add a with lid and 2 trays paper holder and gloves.
