## ESEMPI DI UTILIZZO

### SK-27 SELF ORDER\*

The KIOSK, connected to one or more Omega scales, allows ordering, thanks to touchscreen interface, skipping the queue.

### INFORMATION/ADVERTISING POINT

The large 27" screen of the kiosk is suitable for use as an information point showing the special prices of the day, department offers or the whole store promotions.

### FIDELITY CARD

Customer fidelity management and price checking are allowed thanks to the QR code reader available with the kiosk.

### SELF PAYMENT

In the version with bank POS and telematic printer, the KIOSK transforms into a SELF station for orders and card payments.

In the version with SafeMoney, the SELF station also allows cash payments.
